Exercise:

An old priest told me this story when I was very young. I have since wondered many times where it came from. No one has been able to tell me. Centuries ago a great artist was engaged to paint a mural for the Cathedral in a Sicilian town. The subject was the life of Jesus. For many years the artist laboured diligently, and finally the painting was finished except for the two most important figures; the Child Jesus and Judas Iscariot. He searched far and wide for models for those two figures. One day while walking in an old part of the city he came upon some children playing in the street. Among them was a twelve year old boy whose face stirred the painter's heart. It was the face of an angel-a very dirty one, perhaps, but the face he needed. The artist took the child home with him, and day after day the boy sat patiently until the face of the Child Jesus was finished. But the painter still found no one to serve as model for the portrait of Judas. For years, haunted by the fear that his masterpiece would remain unfinished, he continued his search.

(i) What was the artist engaged to?

The artist was engaged to paint a mural for the cathedral in a Sicilian town.

(ii) For which two figures did the artist require models?

(iii) Where did the artist find his model for the child Jesus?

No study of English can be complete without a reference dictionary of idioms. A very useful and easily available reference material is **The Collins Dictionary of English Idioms**. This dictionary contains clearly explained meanings of over three thousand common English idioms. To make the meaning even clearer, and to show you how the idiom can be used, each idiom is provided with a suitable sample sentence. In this dictionary, the emphasis is on 'true' idioms. These are expressions whose meanings cannot be easily worked out from the words they contain. The dictionary also provides a great many variations in the way these idioms are used. The main emphasis, however is on providing an understanding of the meaning of the idioms, rather than attempting to be a complete guide to idiomatic usage. (145 words)
